TEST FLIGHT

BY JAMES H. DUNN

THE first test flight of the new aircraft was made on the morning of the 15th of the month. The flight was made by the pilot, who was accompanied by the observer. The flight was successful, and the aircraft was found to be capable of performing all the required maneuvers. The flight was made at an altitude of 10,000 feet, and the aircraft was found to be capable of maintaining a steady climb rate of 1,000 feet per minute. The flight was made in a clear sky, and the aircraft was found to be capable of performing all the required maneuvers. The flight was made at an altitude of 10,000 feet, and the aircraft was found to be capable of maintaining a steady climb rate of 1,000 feet per minute.

THE NEW YORK STATE BAR ASSOCIATION

The New York State Bar Association is a voluntary association of lawyers and judges, organized for the purpose of promoting the science of jurisprudence, improving the quality of the legal profession, and securing the highest standards of conduct for all those who are engaged in the practice of law.

The Association is composed of members who are admitted to the practice of law in this State, and who are qualified by education, experience, and character to engage in the practice of law.

The Association is organized into sections, each of which is devoted to the study and promotion of some particular branch of the law. The sections are: Civil Law, Criminal Law, Family Law, Insurance Law, Labor Law, Real Estate Law, and Tax Law.

The Association also maintains a library of books and pamphlets, and a collection of legal papers and documents. It also publishes a journal, the New York State Bar Journal, which contains articles on legal topics of interest to the members.

The Association is also engaged in various other activities, such as the holding of conferences and seminars, the publication of books and pamphlets, and the maintenance of a fund for the relief of indigent members. It is also engaged in the work of promoting the science of jurisprudence, and improving the quality of the legal profession.

The Association is a non-profit organization, and its funds are derived from the contributions of its members. It is also engaged in the work of promoting the science of jurisprudence, and improving the quality of the legal profession.
